Live a minimalist lifestyle -
Do more stuff with less stuff

Who, What & Why

Hi there, we are Shelly & Al McCullough, a Canadian couple who sold all their stuff to move abroad. As we sold all our stuff, we realized…

- How much "lighter" we became
- How many more experiences we could enjoy
- How much extra time (and money) we had
- How much better we felt

At **sellallyourstuff.com**, we show others how to lighten their load and **have fun**. Selling all our stuff to move abroad was just the starting point. We then became traveling house sitters. Our world expanded. **We spent money on experiences.** But we never strayed from our minimalist ways. Having less allows us to do more!

Stuff We Talk About

We concentrate on the following subjects:
